

Grand Union's policy throughout the coronavirus pandemic has been to follow the Government's lead, with the safety of our customers and colleagues remaining a priority.

Thanks to our investment in technology, our teams are now able to offer digital viewings and signs-ups for those in need of re-housing. For those who require a face-to-face viewing, we can now offer these safely whilst maintaining social distancing, but digital viewings remain our preference.

We will, of course, keep customers updated with any changes via our website.
